

Dear Hiring Manager,

I hope you are doing well.

I am writing to express my interest in the Data Analyst position at your organization. I have a strong foundation in data analysis, reporting, and business insights, along with hands-on experience in tools such as Microsoft Excel, SQL, and Power BI.

I have worked on projects involving data cleaning, visualization, and dashboard creation, including a Customer Churn Analysis dashboard where I derived actionable insights to support business decisions. My ability to transform raw data into meaningful reports enables stakeholders to make informed and strategic choices.

In addition, I am proficient in creating MIS reports, automating daily/weekly reports, and maintaining data accuracy. I am detail-oriented, analytical, and committed to delivering high-quality results within deadlines.

I am particularly interested in contributing my skills to your organization and growing as a data professional while adding value through data-driven decision-making.

I would welcome the opportunity to discuss how my skills and enthusiasm align with your requirements. Please find my resume attached for your consideration.

Thank you for your time and consideration.

Sincerely,

Dhammdeep Gajbhiye
