

DHAMMADEEP GAJBHIYE

Data Analyst | Hyderabad, India

+91 786-971-3067 | dhammdeepgajbhiye32@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Data Analyst with internship experience in **SQL, Python, Excel, Power BI, and Tableau**. Built end-to-end analytics solution across **Retail, Restaurant, Customer Churn, Healthcare, and Banking/Financial** datasets using **ETL, EDA, SQL** and **interactive dashboards**. Skilled in **KPI monitoring, data transformation, data visualization, and business intelligence**, delivering actionable insights that support operational and strategic decision-making. Proficient in **MySQL, Power Query, DAX, and statistical analysis** problems through data-driven insights.

TECHNICAL SKILLS

- **Programming & Database:** SQL, Python, MySQL.
- **Data Analysis & Visualization:** Pandas, NumPy, Power BI, Tableau, Matplotlib, Seaborn, Excel.
- **BI & Analytics:** DAX, Power Query, ETL, EDA, KPI Reporting.
- **Other Tools:** GitHub, Jupyter Notebook, VS Code.
- **Domains:** Retail Analytics, Healthcare Analytics, Fin-Tech Analytics.

Professional Experience

Data Analyst Intern | Remote

Feb 2026 – Present

AI Variant | Python, Excel, Power BI, Advance SQL

Remote, India

1. Zomato Global Restaurant Analysis Dashboard | ([GitHub](#))

Feb 2026 - May 2026

- Designed and developed an **End-to-End restaurant analytics** solution by cleaning and transforming **9.5K+ Zomato Restaurant records** with **Excel**, performing advanced **SQL analysis**, and building a **3-page interactive Power BI dashboard** for business decisions-making.
- Performed **EDA and advanced SQL analysis** using **JOINS, CTEs, Window Functions, and Aggregate Functions** to evaluate restaurant ratings, pricing, cuisines, online delivery, and table booking trends across **15 countries and 142 cities**.
- Built **interactive KPI dashboards** that uncovered key insights, including **₹7.77M revenue, 2.93 average rating, and low adoption of online delivery (25.7%)** and **table booking (12.2%)**, enabling data-driven business recommendations.

Power BI Intern | Remote

Jan 2026 – Feb 2026

Saiket Systems | Power BI, DAX

Pune, Maharashtra

Customer Churn Analysis Dashboard | ([GitHub](#))

- Developed an **interactive Power BI dashboard** by analyzing **7000+ telecom customer records** using **Power BI, DAX, and Power Query** to identify customer churn patterns and retention trends.
- Built **dynamic KPI dashboards** to monitor **Total Customers, Churn Rate and Retention Rate**, improving the efficiency of identifying high-risk customer segments by **30%**.
- Performed customer segmentation and business analysis, uncovering **~18% revenue loss** associated with contract type and partner status, enabling **data-driven retention strategies** and business recommendations.

PROJECTS

Retail Order Sales Analysis | SQL & Python | ([GitHub](#))

Jun 2026 – Jul 2026

- Developed an **end-to-end Retail Orders Sales Analysis solution** using **Python, SQL Server, Pandas & Matplotlib** to analyze **9K+ Orders, 17 Products Sub-Categories, and 4 Sales Regions**.
- Performed **EDA and SQL analysis** to identify sales trends, product performance, and regional revenue patterns, uncovering **Technology** as the top-selling category (**3503% sales**) and **Q4** as the highest revenue quarter (**₹2.96M+**).
- Generated **data-driven business recommendations** by identifying **Chairs & Phones** as the most profitable sub-categories, supporting inventory optimization, regional sales strategies, and improved profitability.

Personal Financial Dashboard | Excel & Power BI | ([GitHub](#))

May 2026 – Jun 2026

- Developed an **interactive Power BI Dashboard** to track **₹469.5K income, ₹351.5K expenses, ₹118K savings, and ₹52K emergency fund**, enabling real-time financial monitoring.
- Performed **financial analysis** using **Excel and Power BI** to achieve a **25.13% saving rate**, identifying **house rent (40.9%), family support (22.76%), and groceries (17.07%)** as the highest expense categories.
- Built **dynamic KPI dashboards** with interactive visualizations to support **data-driven budgeting**, optimize monthly expenses, increase savings, and strengthen emergency fund planning.
